1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
2. Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
3. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. These product and feature disclaimers are intended to provide a general overview of feature information, restrictions and limitations. For more comprehensive product and feature information, limitations and restrictions, please refer to your vehicle's Owner's Manual.
4. Improper use of Adaptive Cruise Control (ACC) with Low-Speed Follow (LSF) can lead to a crash. Use the brake pedal whenever necessary, and always keep a safe distance between your vehicle and other vehicles. Use ACC with LSF only when driving on expressways or freeways and in good weather conditions. Exiting a vehicle that has been stopped while the ACC with LSF system is operating can result in the vehicle moving without operator control which could result in serious injury or death. Do not use ACC with LSF in conditions including: in poor visibility; when you must slow down and speed up repeatedly; on winding roads; when you enter a toll gate, interchange, service area, parking area, etc.; on a slippery road; when a spare tire is installed; or when going down a steep hill.
5. Accuracy of the Blind Spot Information (BSI) system will vary based on weather, size of object and speed, and may not detect all relevant traffic. Do not rely only on BSI system when changing lanes. Always look in your mirrors, to either side of your vehicle, and behind you for other vehicles before changing lanes.
6. The Collision Mitigation Braking System (CMBS) is designed to reduce the severity of an unavoidable collision. CMBS does not prevent collisions nor stop the vehicle automatically and may not activate or detect a vehicle in certain circumstances. It is still your responsibility to operate the brake pedal and steering wheel appropriately according to the driving conditions. System operation affected by extreme interior heat.
7. Do not solely rely on the Rear Cross Traffic Monitor system. Always also use your mirrors, and look behind and to the sides of your vehicle before reversing.
8. Forward Collision Warning (FCW) cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions.
9. Lane Departure Warning (LDW) only alerts drivers when lane drift is detected without a turn signal in use. LDW may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat.
10. The Lane Keeping Assist System (LKAS) is not a substitute for your vehicle control. Keep your hands on the steering wheel at all times. The LKAS may deactivate at any time and its accuracy will vary based on weather, speed, vehicle condition and road condition including condition and visibility of lane markings. System operation affected by extreme interior heat.
11. It is always your responsibility to keep the vehicle within your driving lane. The Road Departure Mitigation (RDM) system only alerts you when lane drift is detected without a turn signal in use. RDM may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and lane marker condition. System operation affected by extreme interior heat.
12. Traffic Jam Assist (TJA) only assists driver in maintaining proper lane position when lane markings are identified without a turn signal in use and can only apply mild steering torque to assist. TJA may not detect all lane markings; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
13. Traffic Sign Recognition (TSR) cannot detect all traffic signs and may misidentify certain signs. Accuracy will vary based on weather and other factors. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and complying with all traffic regulations.
14. Feature uses rear door sensors only. Sensors are designed to detect if a rear door was opened and closed since the last time the vehicle was turned off. Sensors do not detect the presence of rear-seat passengers or other items. Always check rear seats before exiting the vehicle.
15. The Anti-lock Braking System (ABS) does not reduce the time or distance it takes to stop the vehicle. It only helps with steering control during hard braking. Always drive appropriately for the conditions.
16. The Vehicle Stability Assist (VSA) may not function properly if tire type and size are mixed. Make sure to use the same size and type of tire, and the air pressures as specified. VSA cannot enhance stability in all driving situations and does not control the entire braking system. Always drive appropriately for the conditions.
17. Visually confirm that it is safe to drive before backing up. Certain conditions (such as weather, lighting and high temperatures) may also restrict the rear view. Do not rely on the rearview display, which does not give you all information about conditions at the back of your vehicle.
18. Visually confirm that it is safe to drive before backing up or parking. Certain conditions (such as weather, lighting and high temperatures) may also restrict the camera view. Do not rely on the camera displays as they may not give you all information about conditions, persons, objects or obstructions around your vehicle.
19. Hill Start Assist may not prevent the vehicle from rolling downhill on a very steep or slippery slope, and will not operate on small inclines. Hill Start Assist is not a replacement for the parking brake.
20. Customers need to sign up for a free Wi-Fi hotspot trial to use Google built-in features. This trial is applicable for a period of 3 months or 3 GB, whichever is earlier after which the customers will be required to either: 1) tether/hotspot from a compatible mobile device or 2) subscribe to a compatible data plan from Bell at then-current pricing (For details, see: <https://www.bell.ca/Mobility/ConnectedCarLanding/Built-In-Connected-car>)
21. Apple CarPlay is provided by Apple Inc. and only compatible with certain Apple devices and operating systems. Devices, cables and adapters are not included and must be purchased separately. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier. Only use Apple CarPlay when conditions allow you to do so safely. Some laws prohibit the operation of electronic devices while operating a vehicle. Launch applications and perform other operations on electronic devices only when the vehicle is safely parked. Certain functionalities may be locked while vehicle is operational. Depending on use, Apple CarPlay can share certain user and vehicle information (e.g., vehicle location, speed and other operating conditions) with the connected iPhone. See Apple's privacy policy or contact Apple Inc. at [www.apple.com](http://www.apple.com) for details regarding Apple's use and handling of data uploaded by Apple CarPlay. Use of Apple CarPlay is at user's own risk, and is subject to agreement to the Apple CarPlay terms of use, which are included as part of the Apple iOS terms of use. Apple CarPlay vehicle integration is provided "as is" and Honda cannot guarantee Apple CarPlay operability or functionality now or in the future due to, among other conditions, changes in Apple CarPlay software/iOS, service interruptions, or incompatibility or obsolescence of vehicle-integrated hardware or software. See dealer for details. Apple and Apple CarPlay are trademarks of Apple Inc.
22. Android Auto is provided by Google Inc. and only compatible with certain Android devices and operating systems. Devices, cables and adapters are not included and must be purchased separately. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier. Only use Android Auto when conditions allow you to do so safely. Some laws prohibit the operation of electronic devices while operating a vehicle. Launch applications and perform other operations on electronic devices only when the vehicle is safely parked. Certain functionalities may be locked while vehicle is operational. Depending on use, Android Auto can share certain user and vehicle information (e.g., vehicle location, speed and other operating conditions) with Google and its service providers. See Google privacy policy or contact Google Inc. at [www.google.com](http://www.google.com) for details regarding Google's use and handling of data uploaded by Android Auto. Use of Android Auto is at user's own risk, and is subject to agreement to the Android Auto terms of use, which are presented to the user when the Android Auto application is downloaded to the user's Android phone. Android Auto vehicle integration is provided "as is" and Honda cannot guarantee Android Auto operability or functionality now or in the future due to, among other conditions, changes in Android Auto software/Android operating system, service interruptions, or incompatibility or obsolescence of vehicle-integrated hardware or software. See dealer for details. Android and Android Auto are trademarks of Google Inc.
23. Only compatible with certain devices and operating systems. Devices, cables and adapters are not included and must be purchased separately.
24. Alexa Skills require Amazon account linking to use. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Will need a paid data plan or tether from smartphone to activate commands. Functionality is subject to limitations of the cellular network provider.
25. New vehicles are equipped with a complimentary AT&T 90-day or 3 GB data trial period, whichever comes first, which must be redeemed/activated by setting up an AT&T account within the first 90 days of eligible vehicle purchase or lease (as applicable). After the trial period, AT&T and Bell Mobility have partnered to enable Bell Mobility to support in-vehicle Wi-Fi® Hotspot connectivity in Canada. Contact AT&T or visit [www.myvehicle.att.com](http://www.myvehicle.att.com) to purchase available data plans after the trial period has ended. The availability of certain GPS satellite and/or cellular networks is required for Wi-Fi® Hotspot to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. 4G LTE connection speeds may vary by region. Wi-Fi is a registered trademark of Wi-Fi Alliance®.
26. Subscription required. Complimentary trial – One year complimentary subscription to AcuraLink Remote package included, after which fees, taxes and other charges will apply in order to continue subscription. The availability of certain cellular networks is required for AcuraLink to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Ask your dealer for full terms and conditions.
27. Based on SAE J1100 cargo volume measurement standard.
28. Based on SAE J1100 cargo volume measurement standard, plus rear footwell space and front seats moved forward.
